LEAD COMPOSITES TECHNICIAN

BHS Composites is looking to hire a Lead Composites Technician. This is a key position for the company since you will be working directly on the production line and will greatly help the team reach its weekly goals. Candidates must have experience with all the steps of composite parts production, notably in:

- Creating parts without any defects with hand lay-up and/or infusion processes;
- Understanding composite component constructions and materials;
- Being at ease with common hand tools and power tools;
- Multitasking and completing projects on time;

We are looking for candidates who take pride in their workmanship, are self-motivated, show a strong work ethic, are able to work with minimal supervision and display safety leadership;

Experience:	3 years in composites manufacturing;
Remuneration:	Highly competitive salary based on experience; + Benefit package available for full-time employees;
Work schedule:	Day shift (Available to start at 6 o'clock a.m. is an asset);
Job type:	Full-time.

Candidates interested in applying for this position must submit their resume to hr@bhscomposites.com or call 802-424-1526 ext:304
